Sabena's Proposal

London: Rapid Service from Regional Airports

In the ancient world, all roads led to Rome. In modern Belgium, all roads do not necessarily lead to Brussels. Sabena, the national airline, is doing its part for regional development by providing service to our three main regional airports: Antwerp, Liège, Ostend. Nearly 40 times a week, Sabena offers direct and non-stop flights between these key regional business centers and London Heathrow. Each connection is a turnaround flight, so busy executives can easily fly to London in the morning and return the same evening. Or fly early evening and return the next day.
